

THE RUTHMAN COMPANIES REPORTER

JUNE 2012

THE MONTHLY SOURCE FOR RUTHMAN COMPANIES EVENTS AND INFORMATION

Ruthman Companies 100th Anniversary *A Century of Service*

2012 marks The Ruthman Company's 100th year. Few companies have enjoyed the success, longevity and growth achieved by Ruthman Companies over the past hundred years. Now with 14 divisions in the United States and the World, Ruthman sets its sights on the next 100 years of continued success for the company, customers and partners. Our official celebration will take place August 15, 16, and 17 at our 2012 distributor's meeting in Greater Cincinnati.

Chopper Pump *The Cutting Edge...*

The Gusher Chopper Pump is the ideal product for the municipal market. This rugged pump is equipped with a cutting system to "chop up" solids present in the liquid to be pumped. This feature prevents clogging of the pump and piping in a system by solids and stringy materials.

Great Southern Pump *Pumping up the South...*

Ruthman Company's newest distributor, Great Southern Pump, had its debut at the recent Florida Water Resource Conference in Orlando, bringing the Deming Vertical Turbine Pump line to Florida's municipal market. Scott Thurrott reports *"The City of Sanford Florida just purchased a 10', 5 stage Deming vertical turbine pump in a sealless design. The sealless design is not normally used or specified by engineers for the municipal market in Florida. This pump will be a good test to demonstrate the benefits of a sealless design. Our hopes are to get this design specified in future jobs and to convert existing pumps when they are ready to be pulled for repair"*.

New Heavy Duty Vertical Submersible Vortex Slurry *From Nagle Pumps*

Nagle Pumps Introduces its newest workhorse slurry pump for industrial and municipal applications. This new pump features a vortex non-clog impeller, dual moisture sensing probes and double seals. This pump is the top of the line for maximum solids handling. Contact Nagle for more information on this rugged new product.

Fulflo Centennial Year

A Shout-Out to "The Quiet Ones"

Fulflo also has a 100th birthday this year, and will celebrate the event at their June 6 & 7 distributor's meeting in Blanchester Ohio and Cincinnati. Fulflo became part of the Ruthman Family of companies in 1982, and is the original manufacturer of the hydraulic bypass pressure relief valve, patented in 1935. Fulflo continues to supply the United States as well as the global market with its completely American made products.

The Road to Chicago

IMTS 2012...

Look for Ruthman Companies at McCormick Place, exhibiting at the 2012 IMTS (International Manufacturers Technology Show) September 10 - 15. Gusher Pumps will be the featured Company, along with Fulflo and BSM.

Hard Work in the Big Easy

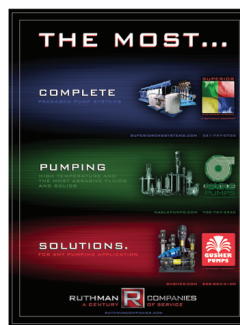

WEFTEC 2012...

Ruthman Companies is jazzed-up for WEFTEC October 5 in New Orleans, Where SES will be featured along with Gusher, Nagle, BSM and Process Systems. WEFTEC is the Water Environment Federation's Annual Technical Exhibition and Conference, and is the largest show of its kind in North America. WEFTEC expects to host over 18,000 attendees this year.

Marketing Notes:

We at Ruthman Companies have stepped up our advertising and marketing initiatives. Keep an eye out for our full page ad campaign in recent and future issues of Pumps&Systems magazine.
