

Extended Length Vortex Pumps

Size Matters...

Gusher recently engineered, manufactured, tested and shipped these extended length Vortex Pumps for a waste water/chemical pit application for Charleston OTC.

Some of the largest Vortex' ever made, these 6 giants range from an over-standard 128 to 162 TPL, pumping at 1800 RPM, up to 255 GPM @ 45' TDH.

They feature 316 stainless steel construction, tungsten carbide bushing and shaft support bushing, CD41 alloy impellers, teflon gaskets and carbon bearings.

Ruthmann Pumpen and Gusher

Another International Joint Venture...

Christoph sends us these photos of new Ruthmann Pumpen horizontal RPE ZS and the Gusher-built vertical RPE EV pumps. These pumps were made for The Rippert Group, designers of modern plants for the coating of surfaces, equipment for air pollution control and reliable industrial fans at their location in Clarholz, Germany. The end user is ABB in Hungary.

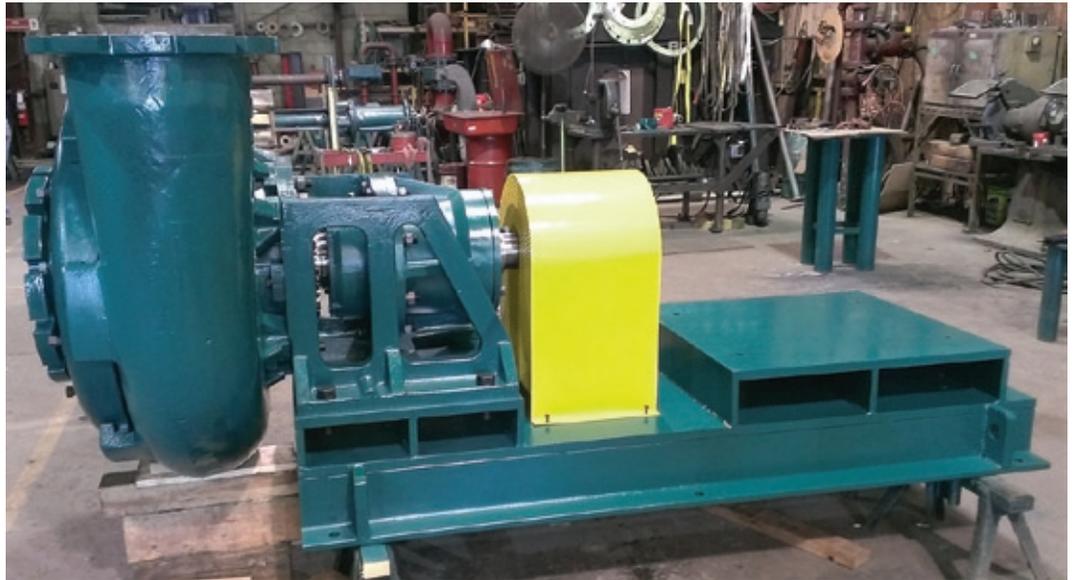

And someone for the next Gusher generation...
Christoph's daughter Pauline!

Nagle News

More Green Monsters..

Nagle recently manufactured and shipped these giant horizontals for Tesoro, Corporation, an independent refiner and marketer of petroleum products located in California. They are clean up pumps for handling oil and gas spillage.

The Gusher AVD series pumps are becoming very popular. Scott Smith & Gary Smith report sales of many OEMs because of the ease of installation with the AVD series.

East Meets West

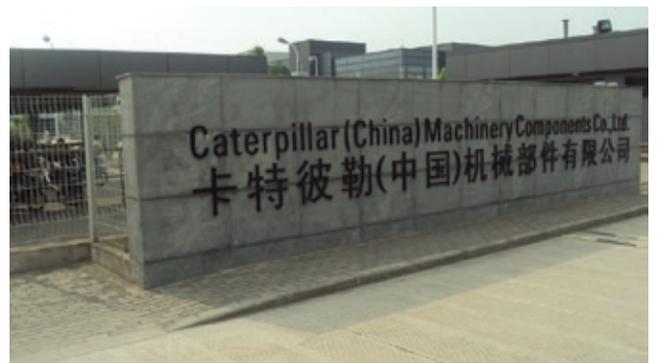

Gusher China Visits the USA..

In July, Gusher of Williamstown and Dry Ridge hosted Zhang Mo and Yang Lei of Gusher Shanghai for some training and good old Kentucky / USA hospitality.

Caterpillar of China

Also in July, Gusher of China put on a pump training seminar at a Caterpillar (China) facility.

Wedding Bells!

On a happy note.....Congratulations to Beth Wood of Birmingham Pump Supplies!
A great time was had by all at her wedding!
Someone seems to be having a particularly good time!
